data sheet

mastafix20

3-in-1 cement

mastafix20 is a versatile 3-in-1 plaster based cement with a setting time of 20 minutes.

Ideal for patching and fixing cornices, mastafix20 also performs well as a bedding cement ideal for small jobs, such as maintenance and prepaint repairs.

performance

Mixing
Mixes easily by hand to a creamy consistency.

Body and Grab
Good body with fast and strong grab.

Workback
Partially set product can be reworked and used again to deliver a polished finish for mitres. Easy to straight stop and clean.

Setting
An even and gradual 20 minute set that can be accelerated to as little as 5 minutes by extended mixing.

Sustainable
Low VOC meeting sustainable building project requirements.

key benefits

- For patching, cornice and jointing
- Sets quickly
- Easy to work with

product information

product size	10kg paper bag
type	Setting powder cement.
mixing ratio	1L of water to 2kg of masta**fix20**
working time	15 - 20 minutes
setting time	20 minutes ✓Adjustable
system usage	✓Cornice ✓Patching ✓Jointing ✓Standard systems ✓Wet area systems
VOC	<50g/L as VOC content per coating

- Always use clean tools and containers.
- Pour the required amount of clean tap water into a container. Add the powder into water, mixing continuously to a smooth, thick consistency. Over mixing will accelerate the setting time.
- Only mix enough cement to be used in 15 minutes, and do not contaminate with previously mixed batches. Once the material starts to set it cannot be remixed.
- masta**fix20** will accept most types of decorative finishes. In accordance with AS/NZS 2311 Guide to the painting of buildings, a three coat paint system must be used. This consists of a sealer/undercoat and two coats of paint.

optimise product performance by:

- Storing in a dry, well ventilated environment fully protected from the weather.
- Washing tools before product dries and hardens.
- Ensuring mastafix20 does not dry out before setting has taken place under severe hot dry conditions.

about us

Siniat is one of the Etex Group's flagship commercial brands, and one of the leading global manufacturers of interior and exterior materials for drywall construction.

The Etex Group is a global family-owned business based in Belgium with a history going back to 1905.

In Australia, Etex has Siniat manufacturing facilities located in Sydney, Melbourne, Bundaberg and Brisbane and supplies steel framing, plasterboard, compounds, cornice and associated products and systems to the Australian building industry through its national distribution network.

All manufacturing plants are certified to the most current versions of the ISO management system standards for Health & Safety, Quality and Environmental Management: ISO 9001:2015 certification for quality management systems, ISO 14001:2015 certification for environmental management systems and ISO 45001:2018 certification for health & safety management systems.

All plasterboard products made in Australia have been independently certified by Global GreenTag to GreenRate Level A. Siniat's certified plasterboard products can achieve 100% Green Star points for sustainable building projects.

All Siniat plasterboard and metal products made in Australia are available under the Siniat Carbon Neutral Opt-In program to help you meet your sustainability goals. Visit siniat.com.au to find out more.

siniat SELECT® offers an online system selector and custom design specification proposal, developed by us and catering to your project requirements.
